Welcome

Welcome to [Dinoko Automation Service & Repairs](#), where innovation, reliability, and excellence come together to deliver world-class automation and security solutions.

Since our establishment in **2015**, we have been providing professional services across South Africa, helping businesses, government institutions, schools, industries, and homeowners protect their assets and improve operational efficiency. Our expertise spans electronic security, automation, access control, surveillance systems, renewable energy, and technical support.

At Dinoko Automation, we believe every project is an opportunity to build lasting relationships through quality workmanship, innovative technology, and exceptional customer service. We are committed to understanding our clients' unique needs and delivering solutions that are reliable, cost-effective, and tailored to their requirements.

As you explore this company profile, you will discover our capabilities, experience, and commitment to creating safer, smarter, and more connected environments.

We appreciate the opportunity to introduce our company and look forward to becoming your trusted technology partner.

Dinoko Automation Service & Repairs
Securing. Connecting. Automating.

CEO Message

At Dinoko Automation, we believe technology should do more than solve today's challenges—it should create safer, smarter, and more efficient environments for the future. Since our establishment in 2015, we have remained committed to delivering innovative automation, security, and energy solutions that our clients can depend on.

Our success is built on integrity, quality workmanship, and a customer-first approach. Every project we undertake reflects our dedication to excellence, continuous improvement, and building long-term partnerships based on trust and reliability.

As we continue to grow, our mission remains clear: to empower businesses, institutions, and communities through innovative technology and professional service that makes a lasting impact.

Thank you for placing your confidence in Dinoko Automation. We look forward to serving you and building a smarter, safer future together.

Solutions

Dinoko Automation Service & Repairs provides a comprehensive range of integrated security, automation, and energy solutions designed to protect people, secure assets, and improve operational efficiency.

Our solutions include:

Solution	Description
CCTV Surveillance	Intelligent video monitoring solutions for homes, businesses, schools, and public facilities.
Access Control	Secure entry management using card readers, biometrics, facial recognition, and electronic locking systems.
Gate Automation	Reliable motorized gate systems for residential, commercial, and industrial sites.

Solution	Description
Boom Gates & Turnstiles	Controlled vehicle and pedestrian access solutions for high-traffic environments.
Electric Fencing	Perimeter protection systems designed to detect and deter unauthorized access.
Alarm Systems	Intrusion detection systems for early warning and rapid response.
Intercom & PA Systems	Clear communication systems for access points, buildings, schools, and facilities.
Solar PV Solutions	Renewable energy systems that reduce power dependency and support business continuity.
Control Rooms	Centralized monitoring environments for surveillance, security, and operational control.
Preventative Maintenance	Scheduled inspections, repairs, and support to keep systems reliable and fully operational.

Our approach combines smart technology, professional installation, reliable support, and long-term maintenance to deliver complete solutions that work.

Industries We Serve

At **Dinoko Automation Service & Repairs**, we provide tailored automation, security, and renewable energy solutions across a wide range of industries. Our experience enables us to understand the unique operational and security requirements of each sector, delivering reliable solutions that improve safety, efficiency, and business continuity.

Government

Supporting national, provincial, and local government institutions with integrated security, access control, surveillance, and infrastructure solutions.

Education

Providing schools, colleges, universities, and training institutions with CCTV surveillance, access control, public address systems, intercoms, and campus security solutions.

Commercial

Helping offices, business parks, shopping centres, and corporate facilities enhance security, automate operations, and protect valuable assets.

Industrial

Delivering robust automation, perimeter security, and monitoring solutions for factories, warehouses, manufacturing plants, and production facilities.

Residential

Enhancing the safety and convenience of homes, estates, and residential developments through smart security and home automation solutions.

Healthcare

Securing hospitals, clinics, laboratories, and healthcare facilities with reliable surveillance, controlled access, and emergency communication systems.

Mining

Providing durable security and monitoring solutions designed for demanding mining and remote operational environments.

Retail

Protecting retail stores, shopping centres, and distribution outlets through intelligent surveillance, access management, alarm systems, and loss prevention solutions.

Logistics

Supporting warehouses, distribution centres, transport depots, and logistics operations with integrated security, vehicle access control, and real-time monitoring systems.

Delivering trusted technology solutions across diverse industries, creating safer, smarter, and more secure environments throughout South Africa.

Projects

Representative projects include nationwide installations, school security upgrades, access control systems, solar installations, CCTV deployments and long-term maintenance contracts.

Lorch Gardens residential complex	Design, Planning, installation, programming of access control for the complex
SA Tourism Network Infrastructure and peremeter security	Dinoko Automation successfully installed 244 network data points for SA Tourism at Bojanala House, improving connectivity and supporting the organisation’s ICT operations. The project also included maintenance of two automated sliding gates and the electric-fence system protecting the entire property perimeter, ensuring reliable access control and enhanced site security.
AUDA-NEPAD	ICT and Integrated Security Management – AUDA-NEPAD For more than five years, Dinoko Automation has managed and maintained ICT and integrated electronic-security systems for AUDA-NEPAD. Our services include access-control systems, boom gates, automated gate motors and CCTV surveillance across the organisation’s facilities, including the CEO’s official

	residence. This long-term partnership demonstrates our ability to provide reliable technical support, preventative maintenance and responsive system repairs.
SERITARITA SECONDARY MOKOPANE	Integrated ICT and Security Project – Seritarita Secondary School, Mokopane Dinoko Automation successfully planned, supplied, installed and commissioned an integrated ICT and electronic security solution at Seritarita Secondary School in Mokopane, Limpopo. The project included CCTV surveillance, an alarm system, an intercom system and a public-address system. The completed solution strengthened school security, improved communication and supported effective monitoring across the premises.
ENGIN PETROLIUM CLAYVILLE	Dinoko Automation conducted fault-finding, repairs and functional testing on the automatic sliding entrance door at Engen Filling Station in Olifantsfontein. The repair restored the door's safe, smooth and reliable operation, ensuring convenient customer access and minimising disruption to the filling station's daily operations
<u>KTVR</u>	Contactless Access Control – KTVR Bus Services During the COVID-19 pandemic, Dinoko Automation assisted KTVR Bus Services by implementing a contactless biometric access-control system across its offices, including the CEO's office. The no-touch solution improved hygiene, reduced physical contact and strengthened controlled access to restricted areas while supporting a safer working environment.
SC-JOHNSON FAMILY	Electric-Fence Repair and Maintenance For more than five years, Dinoko Automation has provided reliable electric-fence repair and maintenance services to residential, commercial and industrial clients. Our work includes system inspections, fault-finding, repairs, component replacement, fence-line maintenance and performance testing to ensure dependable perimeter protection and continued system operation.
<u>THE MVULA TRUST</u> <u>Khuluma Freight logistics</u>	CCTV and Off-Site Monitoring – Khulula Freight Logistics Dinoko Automation successfully supplied, installed and commissioned a CCTV surveillance system for Khulula Freight Logistics. The system was designed to monitor the client's warehouse and office areas, improving security, visibility and incident management. Dinoko Automation also provided an off-site monitoring solution, enabling remote surveillance and enhanced protection of the premises, employees and business assets.
<u>ESKOM LEARNING ACADEMY</u>	Door Automation Project – Eskom Learning Academy Dinoko Automation successfully supplied, installed, configured and commissioned an automated sliding glass entrance door and multiple automated swing doors at Eskom Learning Academy. The project improved safe and convenient access for staff, walk-in visitors and guests with disabilities or limited mobility. All systems

were successfully tested and handed over, providing reliable operation and a more accessible, inclusive environment.

[ESKOM MEGAWATT](#)

[Eskom megawatt sliding door](#)

Door Automation Project – Eskom Megawatt Park

Following the successful project at Eskom Learning Academy, Dinoko Automation was requested to deliver similar door-automation services at Eskom Megawatt Park. The scope included the supply and installation of automated sliding glass and swing-door systems, as well as fault-finding and repairs to an existing automated revolving door. The work improved accessibility, safety and reliable movement for employees, visitors and people with limited mobility.

Leadership

At **Dinoko Automation Service & Repairs**, our leadership is built on a shared vision of innovation, integrity, and excellence. Together, our founders have established a company committed to delivering world-class automation, security, and renewable energy solutions while building lasting relationships with clients across South Africa.

Founder & Director

[Brian Malatji](#)

Founder & Director

Brian Malatji founded Dinoko Automation Service & Repairs in **2015** with a vision of creating a trusted South African technology company that delivers innovative, reliable, and cost-effective security and automation solutions. His expertise in project management, electronic security systems, renewable energy, and business development continues to drive the company's growth, innovation, and operational excellence.

Co-Founder

Dibuseng Emelda Malatji

Co-Founder

As Co-Founder, Dibuseng Emelda Malatji plays a vital role in the strategic growth and day-to-day operations of the company. She oversees business administration, client relations, and operational coordination, ensuring that every project is delivered with professionalism, efficiency, and a strong commitment to customer satisfaction. Her leadership has been instrumental in building a culture of teamwork, accountability, and service excellence.

Our Team

Supporting the founders is a dedicated team of experienced project managers, skilled technicians, installers, and administrative professionals who work collaboratively to deliver high-quality solutions that meet the evolving needs of our clients.

Together, we are united by one purpose:

To deliver innovative technology solutions that protect people, secure assets, and build safer, smarter, and more sustainable communities.

Compliance & Accreditation

At **Dinoko Automation Service & Repairs**, we are committed to maintaining the highest standards of professionalism, regulatory compliance, and quality assurance. Our commitment to compliance ensures that every project is delivered safely, ethically, and in accordance with industry best practices.

Our compliance framework includes:

Compliance Area	Status
